

Dr. Trust Beta

Trust Beta is a Full Professor and Tier 1 Canada Research Chair in Grain-based Functional Foods in the Department of Food and Human Nutritional Sciences at the University of Manitoba.

Professor Beta has published over 180 peer-reviewed articles and book chapters focused on grain science and plant phytochemicals. She has co-edited a book on '**Cereal Grain-Based Functional Foods: Carbohydrate and Phytochemical Components**' (<http://pubs.rsc.org/en/content/ebook/978-1-78801-148-8>) published by the UK's Royal Society of Chemistry. She is also the sole editor of a book on '**Improving the nutritional and nutraceutical properties of wheat and other cereals**' (<https://shop.bdspublishing.com/store/bds/detail/workgroup/3-190-105791>) recently released by the UK's Burleigh Dodds Science Publishing.
