

List of Poster Presentations

No	ID	Posters
P1	3	Studies on Anti-Degranulation Effect of Dipeptides <u>Takuva Sugahara</u> - Ehime University (Japan)
P2	18	Development of a Functional Antioxidant Beverage from Local Food Resource <i>Garcinia kola</i> Enriched with Lemon and Pineapple <u>Gail Amin Forcha</u> - University of Buea (Cameroon)
P3	31	Dietary Alaska Pollock Protein Alters Gut Microbial Community and Improves Cognitive Function in Senescence-Accelerated Prone SAMP8 Mice Fed a High-Fat Diet <u>Ryota Hosomi</u> - Kansai University (Japan)
P4	38	Functional and Physicochemical Advantages of Z-Isomer-Enriched Carotenoids in Industrial Applications <u>Masaki Honda</u> - Meijo University (Japan)
P5	46	Dietary Pectin Enhances Intestinal Antimicrobial Protein Expression via a Tuft Cell–ILC2–STAT6 Signaling Axis <u>Takuva Suzuki</u> - Hiroshima University (Japan)
P6	61	Seasonal Variability in Essential Oil Composition of Scots Pine (<i>Pinus sylvestris</i>) Needles Isolated by Hydro-Distillation and Supercritical CO ₂ Extraction <u>Petras Rimantas Venskutonis</u> - Kaunas University of Technology (Lithuania)
P7	62	Plasma Activated Water: A Green Alternative to Organic Solvents for Efficient Recovery of Phenolic Compounds from Blueberries <u>Muhammad Yasir</u> - University of British Columbia (Canada)
P8	65	Peach Kernel Oil-Stabilized Double Emulsions for Enhanced Probiotic Protection and Gut Microbiota Modulation <u>Anand Kumar Sethukali</u> - The University of Melbourne (Australia)
P9	76	Two Worlds of Functional Dairy Products: The Market for Functional Dairy Products in Poland and Egypt <u>Marcin Lukasiewicz</u> - University of Agriculture in Krakow (Poland)
P10	77	Evaluation of the Foaming, Setting, and Emulsifying Properties of Eggs Enriched with Conjugated Linolenic Acid (CLnA) <u>Adam Florkiewicz</u> - University of Agriculture in Krakow (Poland)
P11	78	Consumer Expectations and Openness to New Functional Products: A Study in Poland, the UK, and China <u>Agnieszka Filipiak-Florkiewicz</u> - University of Agriculture in Krakow (Poland)

P12	102	Modulation of Plasma Lipids by Isada Oil Rich in Alkyl-Type Phospholipids <u>Megumi Nishimukai</u> - Iwate University (Japan)
P13	104	Eggshell Membrane Restrains Inflammation via the Gut Microbiota–Immune Axis <u>Huijuan Jia</u> - University of Tokyo (Japan)
P14	105	Differential Maternal and Delivery Risks Across Diabetes Subtypes in Pregnancy: Evidence from the TriNetX Global Collaborative Network <u>Chiao-Ming Chen</u> - Shih Chien University (Taiwan)
P15	108	Inhibitory Effect of <i>Sargassum horneri</i> Extract on PCSK9 Expression via Modulation of Histone Acetylation in a DLPS-Induced HepG2 Model of Hypercholesterolemia <u>Jin Taek Hwang</u> - Korea Food Research Institute (Korea)
P16	123	Low-Molecular-Weight Peptides Derived from Wheat Germ Exhibit Cytotoxic and Pro-Apoptotic Effects on Human Colon Adenocarcinoma Cells <u>Maria Elvira Zuñiga-Hansen</u> - Centro Regional de Estudios en Alimentos Saludables (Chile)
P17	135	Identification of Isomerized Food-Derived Peptides in Mouse Plasma Following Ingestion of Soft-Shelled Turtle Powder <u>Hikaru Okahana</u> - Kyoto University (Japan)
P18	139	Evaluation of Anti-Inflammatory Effects of the Aqueous Byproduct of Agar Press-Dehydration <u>Chiyo Higashigawa</u> - Tokyo Kasei University (Japan)
P19	146	Enhanced Anti-Inflammatory Activity of <i>Taiwanofungus salmoneus</i> Supplemented with an Ergothioneine-Rich Co-Extract of <i>Pleurotus citrinopileatus</i> and <i>Pleurotus eryngii</i> in LPS-Induced RAW 264.7 Macrophages <u>Shu-Yao Tsai</u> - National Formosa University (Taiwan)
P20	147	Comparison of Peptide Profiles and ACE Inhibitory Activities Between Cacao Nibs and Shells <u>Akari Matsumura</u> - Tokyo Kasei University (Japan)
P21	153	Comprehensive Identification of Diketopiperazines (DKPs) in Spent Coffee Grounds (SCG) and Exploration of Their Potential as a Value-Added Material <u>Toko Nakashima</u> - Tokyo Kasei University (Japan)
P22	158	Antioxidant Potential of Soluble and Insoluble-Bound Phenolics from Maqui By-Products <u>Adriano Costa de Camargo</u> - University of Chile (Chile)
P23	159	Australian Native Fruit Based Functional Food: <i>In Vitro</i> Digestion Metabolite Production and Microbiome Effects <u>Thomas Leadbetter</u> - University of Melbourne (Australia)
P24	181	Effect of Enzymatic Hydrolysis and Peptide Size on the Functional Properties of Plant Proteins

		<u>Farnaz Maleky</u> - Ohio State University (USA)
P25	201	Correlational and Molecular Mechanism Analyses of Bioactive Compounds from <i>Ziziphus jujuba</i> : Focusing on Anti-Hyaluronidase and Antioxidant Networks <u>Saba Noreen</u> - Hallym University (Republic of Korea)
P26	208	Detection, Dose Assessment, and Risk Interpretation of Undeclared PDE5 Inhibitors in Honey-Based Enhancement Products Using a Validated HPLC–UV Method <u>Ala Sirhan</u> - Amman Arab University (Jordan)
P27	214	Innovations in Functional Beverages: <i>Lactobacillus rhamnosus</i> Fermentation of Zimbabwe's Local Sweet Potato and Banana Varieties <u>Enetia Bobo</u> - University of Zimbabwe (Zimbabwe)
P28	220	Chemical Composition, Antioxidant Activity, α -Glucosidase Inhibitory Activity, and Metabolomic Profiling of <i>Dendrobium officinale</i> Across Diverse Growing Regions and Cultivation Modes <u>He Shu</u> - Southwest Forestry University (China)
P29	226	Synergistic Effects of Ergothioneine-Rich <i>Pleurotus</i> spp. Formulations Containing <i>Taiwanofungus salmoneus</i> on Skin Compatibility and Wound Healing <u>Shu-Yao Tsai</u> - National Formosa University (Taiwan)
P30	228	Application of <i>Ligularia fischeri</i> Extract in Edible Films as a Functional Delivery System for Antioxidant and Osteogenic Activities <u>So Hee Kim</u> - Changwon National University (Korea)
P31	229	Valorization of Citrus Pomace Through Optimization of Bioactive Flavonoids and Application in Functional Yanggaeng <u>Mi Jeong Kim</u> - Changwon National University (Korea)
P32	241	Anti-Muscle Atrophy Activity of Mackerel (<i>Scomber japonicus</i>) Head Hydrolysate: Potential Application as a Functional Food Ingredient for Healthy Aging 이걸로 해서 초록 <u>Wook-Chul Kim</u> - Soonchunhyang University (Republic of Korea)
P33	242	Anti-Melanogenic Potential of Small Extracellular Vesicles Derived from Green-Stage <i>Haematococcus lacustris</i> Culture Medium as a Food Bioactive Material <u>Ye-Sol Kim</u> - Soonchunhyang University (Republic of Korea)
P34	243	Seaweed-Derived Extracellular Vesicles in Hair Growth Regulation <u>Seo-rin Jung</u> - Soonchunhyang University (Republic of Korea)
P35	250	Kinetics and Molecular Docking Studies of the Inhibition of Arginase by Lupin Seed Protein-Derived Peptides <u>Stanley Chukwuejim</u> - University of Manitoba (Canada)

P36	75	Effects of (Poly)phenols-Rich Cocoa and Guar Gum Concoctions in Rats Fed with High-Fat Diet <u>Abbe Maleyki Mhd Jalil</u> - Universiti Brunei Darussalam (Brunei)
P37	128	Gene–diet interactions modulate adiposity response to anthocyanin-rich red rice in type 2 diabetes: Evidence from a randomized controlled trial <u>Zulfitri Azuan Mat Daud</u> - Universiti Putra Malaysia, Malaysia
P38	141	Proximate Composition, Antioxidant Potential and Amino Acid Profile of Sprout and Microgreen of Mung Bean (<i>Vigna radiata</i> (L.) R. Wilczek) <u>Ahmad Syazrin Roslan</u> - Universiti Putra Malaysia (Malaysia)
P39	183	Effect of Alcalase-Assisted Treatment on the Nutritional, Bioactive and Functional Properties of <i>Moringa oleifera</i> Leaf Powder <u>Amsal Abd Ghani</u> - MARDI (Malaysia)
P40	180	Revisiting Nutrition-Specific Interventions as Functional Strategies for Early-Life Growth and Long-Term Disease Risk Reduction <u>Eman Salim</u> - The National Ribat University (Sudan)
P41	174	Clinical Effects of a Defined Multi-Strain Microbial Cell Preparation (MCP® BCMC®): A Targeted Review Across Gut, Metabolic, and Well-Being Outcomes <u>Barakatun Nisak Mohd Yusof</u> - Universiti Putra Malaysia (Malaysia)
P42	172	Antioxidant and α -Amylase and α -Glucosidase Inhibitory Activities of <i>Vanilla planifolia</i> Extracts <u>Bee Ling Tan</u> - Management and Science University (Malaysia)
P43	28	Utilization of Non-Thermal Microfiltration on Herbal Extracts for Improving Java Tea–Based Functional Beverage Quality <u>Brigitta Andien Alverina</u> - IPB University (Indonesia)
P44	50	Phytochemical Profiling and Bioactivities of Freeze-Dried Subcritical Water Extracts of <i>Zingiber</i> Species: Antioxidant Activities and Protection Against A β -Induced Cytotoxicity <u>Carmel Pao Eah Chuah</u> - University of Malaya (Malaysia)
P45	69	Physicochemical and Sensory Properties of Mature Okra Flour-Incorporated Biscuits (MOFB) <u>Chee Yee Tan</u> - Universiti Putra Malaysia (Malaysia)
P46	164	Phytochemicals and Anti-Influenza Potential of Malaysian Stingless Bee Honey: An <i>In Silico</i> Study <u>Che Wan Nur Safraa Che Wan Sapawi</u> - Monash University Malaysia (Malaysia)
P47	24	Ameliorative Effects of <i>Alternanthera sessilis</i> (Red) on Hepatic Lipid Accumulation: Lipidomic Insights into Lipid Remodelling <u>Chia Shing Hwong</u> - University of Technology Sarawak (Malaysia)

P48	97	Optimization of a Browning Inhibitor Compound for Preserved Sour Bamboo Shoots <u>Cui Na</u> - Universiti Teknologi MARA (Malaysia)
P49	161	Chemical Profiling and Anti-Inflammatory Activity of <i>Schizophyllum commune</i> -fermented Wheat as a Functional Food Ingredient <u>Dang Lelamurni Abd Razak</u> - Universiti Putra Malaysia (Malaysia)
P50	209	Nutritional, Physicochemical Properties and Sensory Evaluation of High Fiber Banana Stem Functional Drink Powder <u>Faridah Kormin</u> - Universiti Tun Hussein Onn Malaysia (Malaysia)
P51	224	Honey Lemonade Botanical Drink Attenuates Inflammatory Responses in LPS-Stimulated RAW 264.7 Macrophages <u>Hadijah Hassan</u> - Malaysian Agricultural Research and Development Institute (Malaysia)
P52	219	Immunomodulatory Effects of <i>Euglena gracilis</i> Supplementation: A Systematic Review of Randomized Controlled Trials <u>Ily Afiqah Tugi</u> - Universiti Putra Malaysia (Malaysia)
P53	83	Plant-Derived Exosome-Like Nanoparticles as Functional Ingredients in an Optimized Cajuputs® Candy with Enhanced Antioxidant and Sensory Acceptance <u>Lies Nurwanti</u> - IPB University (Indonesia)
P54	17	Upcycling Underutilized Fruit from Borneo into Nutrient-Dense Functional Food Bars: Nutritional and Sensory Evaluation, <u>Lu Ying Khoo</u> - Universiti Putra Malaysia (Malaysia)
P55	54	Ultrasound-Assisted Green Extraction from <i>Gnetum gnemon</i> L. Leaves and Its Anti-Diabetic Potential <u>Muhammad Naufal Qaweim Rushdy</u> - Universiti Malaysia Sabah (Malaysia)
P56	115	From Leaf to Gut: How Drying Methods Shape Antioxidant Potential and Bioaccessibility of Bidara Leaf Infusion <u>Nafisah Musa</u> - Universiti Teknologi MARA (Malaysia)
P57	211	Systematic Literature Review on the Gastrointestinal Digestion of Polysaccharide-Stabilized Emulsions <u>Norazlin Abdullah</u> - Universiti Tun Hussein Onn Malaysia (Malaysia)
P58	66	Biostability of Total Anthocyanin in Red Grapes Juice (<i>Vitis vinifera</i> L.) Incorporated with Green Apple Juice (<i>Malus domestica</i>) <u>Nur Anis Nasuha Binti Azmi</u> - Universiti Putra Malaysia (Malaysia)
P59	207	A Review of Microwave Drying Technology in Banana Waste Valorization <u>Nur Hafizah Malik</u> - Universiti Tun Hussein Onn Malaysia (Malaysia)

P60	215	Oats as a Functional Breakfast Food for Inducing Early Weight Loss: A One-Month Pragmatic Case Trial Among Adults with High BMI in a Workplace Workplace Wellness Programme <u>Nur Maziah Hanum Osman</u> - Universiti Putra Malaysia (Malaysia)
P61	223	Physicochemical Characteristics, Mineral Composition and Antioxidant Enzyme Profiles of Selected Hybrid Melons Cultivated in Malaysia <u>Nur Najiha Azwa Abd Rahman</u> - Universiti Teknologi MARA (Malaysia)
P62	32	Antidiabetic and Antihyperlipidemic Potentials of <i>Durio zibethinus</i> Peel Extract in HFD-STZ-Induced Obese Diabetic Rat Model <u>Nur Sahira Noorhashim</u> - Universiti Putra Malaysia (Malaysia)
P63	70	Antioxidant Content and Activities of Red Grape Juice Incorporated with Green Apple <u>Nurin Alya Nastasya Binti Mohd. Nazir</u> - Universiti Putra Malaysia (Malaysia)
P64	26	Effects of Incorporation of Dried <i>Ziziphus jujuba</i> on Proximate Composition, Iron, Zinc and Vitamin C Content in Mushroom-Based Meat Alternatives <u>Nurul Husna Shafie</u> - Universiti Putra Malaysia (Malaysia)
P65	96	Evaluation of Nutritional Composition and Bioactive Properties of <i>Nymphaea pubescens</i> Seed Flour as a Potential Functional Food Ingredient <u>Rasanjali Samarakoon</u> - University of Peradeniya (Sri Lanka)
P66	179	Development and Nutritional Characterization of 80% Dark Keto Chocolate for Health-Conscious Consumers <u>Rosmawati Mat Shair</u> - Malaysian Cocoa Board (Malaysia)
P67	171	Omega-3 Fatty Acids from Yellow Stripe Scad Versus Salmon Fillet: Comparative Effects on Platelet Microparticle Biomarkers in Overweight Healthy Malaysian Adults <u>Sabariah Md Noor</u> - Universiti Putra Malaysia (Malaysia)
P68	136	Sugar Load and Endocrine-Disrupting Chemical Migration in Commercial Boba Milk Tea: A Multi-Brand Analysis of Nutritional and Packaging-Derived Contaminants <u>Saiful Irwan Zubairi</u> - Universiti Kebangsaan Malaysia (Malaysia)
P69	235	Effect of Edible Bird Nest Supplementation on Skin Biophysical and Biomechanistic Characteristics Among Premenopausal Women <u>Salwana Ahmad</u> - Universiti Putra Malaysia (Malaysia)
P70	218	Effects of Legume Type and Frying Method on the Antioxidant Properties and Nutritional Composition of Tempe <u>Munirah Mohd Nasir</u> - Universiti Putra Malaysia (Malaysia)
P71	237	Effects of Chocolates (Dark, Milk, White) on Cognitive Performance in Healthy Volunteers <u>Abbe Maleyki Mhd Jalil</u> - Universiti Brunei Darussalam (Brunei)

P72	39	Optimised Flavonoid Extraction of <i>Alternanthera sessilis</i> Red and Its Phytochemical Analysis Using HPLC-QToF-MS/MS <u>Shi Yan Cheah</u> - Universiti Malaya (Malaysia)
P73	230	Quality Characteristics of Palm-Based Cooking Oils Commercially Available in Malaysia: An Updated Assessment <u>Soon-Sen Leow</u> - Malaysian Palm Oil Board (Malaysia)
P74	182	Predicting Omega-3 Retention in Cooked Malaysian Fish: Weibull Modelling of EPA and DHA under Thermal Processing <u>Suryati Muhammad Alinafiah</u> - Universiti Putra Malaysia (Malaysia)
P75	138	Influence of Enzyme Source on ACE-Inhibitory Peptides from Bambara Groundnut Protein Hydrolysates: Comparative Analysis of Bioactivity, Gastrointestinal Stability, and Molecular Docking <u>Umesh Patil</u> - Prince of Songkla University (Thailand)
P76	110	AI-Driven Discovery of Postbiotic Nutraceuticals from Indigenous Fermented Foods for Precision Health <u>Ushna Momal Momal</u> - Muhammad Nawaz Sharif University of Agriculture (Pakistan)
P77	184	Dietary <i>Eucheuma denticulatum</i> Improves Intestinal Barrier Integrity and Modulates Gut Microbiota in High-Fat Diet-Fed Rats <u>Vimala Balasubramaniam</u> - National Institutes of Health (Malaysia)
P78	14	Valorisation of Fruit and Vegetable Waste into Antioxidant-Rich Eco-Enzymes: Physicochemical Properties and HPLC Phenolic Profiling <u>Wan Saidatul Syida Wan Kamarudin</u> - Universiti Teknologi MARA (Malaysia)
P79	33	Beyond Basic Hydration: A Systematic Review Examining the Health Benefits of Functional Beverages <u>Wei Wen Goh</u> - Universiti Putra Malaysia (Malaysia)
P80	178	The Effect of <i>Theobroma cacao</i> Leaves on Red Blood Cell in Dietary-Induced Metabolic Disorder Rats <u>Zainal Baharum</u> - Cocoa Innovation & Technology Centre (Malaysia)
P81	236	Optimised Germinated Rice Blend for Bioactive and Starch Functional Properties <u>Noorul Athiera Mohd Azlie</u> - Universiti Teknologi MARA (Malaysia)
P82	248	Economic Advantages of Sorghum for Human Consumption: A Systematic Literature Review Integrating Agronomic, Nutritional, and Health Evidence <u>Nur Aqilah Amalina Jaafar</u> - Universiti Putra Malaysia (Malaysia)

P83	251	Physicochemical Properties and Bioactivities of <i>Ganoderma lucidum</i> Polysaccharides and Their Derivatives <u>Hock Eng Khoo</u> - Guilin University of Technology (China)
P84	198	Bioactive-Rich Kale Extracts Protect Against UV-Induced Oxidative Stress and DNA Damage in Human Skin Fibroblasts <u>Harichandana Valisakkagari</u> - Dalhousie University (Canada)
P85	189	Effect of Sprouting on the Nutritional Composition and Functional Properties of Pearl Millet (<i>Pennisetum glaucum</i>) <u>Tawakaltu Abdulrasheed-Adeleke</u> - Federal University of Technology Minna (Nigeria)
P86	185	Nutritional Compositions of Common Edible Cephalopods in Malaysia <u>Norhayati Mustafa Khalid</u> - National Institutes of Health (Malaysia)
P87	196	Fatty Acid Profile in Fish from Local Markets in Malaysia: Insights From the Malaysian Food Composition Database <u>Mohammad Adi Mohammad Fadzil</u> - National Institutes of Health (Malaysia)
P88	186	Quantification of Selected Polyphenols in Honey from Peninsular Malaysia <u>Suraiami Mustar</u> - Ministry of Health Malaysia (Malaysia)
P89	195	Exploring Wild Foods and Local Culture in Selected Communities in Ilocos Sur of Philippines <u>Charina Javier</u> - Universiti Putra Malaysia (Malaysia)
P90	194	Sensory Evaluation of Cooked Red Tilapia Filets (<i>Oreochromis</i> sp.): A Comparison Between Aquaculture (Red Kenyir™) and Wild Conditions <u>Aswir Abd Rashed</u> - National Institutes of Health (Malaysia)
P91	254	Protective Effects of <i>Toxicodendron sylvestre</i> Extract Against Obesity-Induced Sarcopenia <u>Wook-Chul Kim</u> - Soonchunhyang University (Republic of Korea)
P92	255	Protective Effects of <i>Cornus controversa</i> Leaf Extract Against Dexamethasone-Induced Muscle Atrophy <u>Wook-Chul Kim</u> - Soonchunhyang University (Republic of Korea)
P93	256	Effect of Protocatechuic Acid on Serum Glucose and Gut Microbiota in STZ-Induced Diabetic Mice <u>Huafang Ding</u> - Guangdong Pharmaceutical University (China)
P94	257	Preliminary Need Analysis and User Acceptance of Butterfly Pea (<i>Clitoria ternatea</i>)-Based Sports Recovery Product Among University Athletes: A Pilot Study <u>Fairus Fariza Binti Zainudin</u> - Universiti Pendidikan Sultan Idris (Malaysia)

P95	258	Butterfly Pea (<i>Clitoria ternatea</i>) in Sports Applications: A Scopus Bibliometric and Trend Analysis (2016–2026) <u>Fairus Fariza Binti Zainudin</u> - Universiti Pendidikan Sultan Idris (Malaysia)
P96	259	Mushroom β -Glucan-Resveratrol Nanocarriers Target Microglial Mitochondria to Attenuate Neuroinflammation via Immunometabolic Reprogramming <u>Yuting Su</u> - Guangdong Pharmaceutical University (China)
P97	260	Roasted Whole-Grain Barnyard Millet Flour Ameliorates Cardiometabolic Risk Factors in High-Carbohydrate, High-Fat Diet-Induced Rats <u>Siti Raihanah Shafie-</u> Universiti Putra Malaysia (Malaysia)
P98	103	Acceptance of Okara Incorporated Bread: Effect on Physical and Textural Quality <u>Siti Rashima Romli</u> - Universiti Teknologi MARA (Malaysia)
